EDUCATION

CMR University   **2020 - 2024**

*B-tech in Computer Science & Engineering - **CGPA** - **8.2***   *Bengaluru, Karnataka*

FREELANCING

Snitch   **June-Dec**

Returns Department (Data Analyst)   *Bengaluru, Karnataka*

- Led a team of analysts to process and analyze returns data, identifying key trends and patterns to reduce return rates by 10%.
- Developed data-driven strategies to streamline the returns process, resulting in a 20% reduction in processing time.
- Collaborated with the operations and customer support teams to ensure seamless returns management, improving customer satisfaction by 15%.
- Utilized SQL, Power Bi and Excel to generate reports, providing insights that informed decision-making for product improvement and inventory management.

PROJECTS

Gigster ⧉ / MERN Stack, Figma, GitHub   **2023-24**

- Developed a MERN stack freelancing platform that accommodated both fresher and experienced professionals, fostering collaboration and innovation.
- Implemented advanced features such as Review and Rating, job posting, and payment processing, enhancing project management efficiency by 40% and boosting client satisfaction scores by 25%.
- Collaborated with team members to design and execute user-friendly interfaces, ensuring a seamless experience for both clients and freelancers

Restaurant UI ⧉ / HTML, CSS, Javascript, Figma   **2022**

- Designed and Evolved a visually appealing restaurant user interface using HTML, CSS, and JavaScript.
- Enforced interactive features such as menu navigation and reservation forms to enhance user experience.
- Ensured compatibility across various browsers and devices through thorough testing and troubleshooting.

Student Management System ⧉ / Data Structures, OOPS, C++   **2021**

- Brainstormed and conceptualized the Student Management System software, incorporating concepts of linear data structures and object-oriented programming.
- Enhanced and executed efficient data management functionalities, allowing administrators to add, delete, and update student records seamlessly.
- Streamlined administrative tasks such as attendance tracking, grade management, and report generation to improve efficiency and productivity.

TECHNICAL SKILLS

Programming Languages: C/C++, Python, C#

Web Development: HTML, CSS, JavaScript, Bootstrap

Databases: SQL, PostgreSQL, MySQL

Tools and Platforms: Figma, Git and GitHub, VS Code, MySQL Workbench, pgAdmin4, MS Excel, Power Bi

Concepts: OOPS (Object-Oriented Programming System), SDLC, Data Structures & Algorithms

CERTIFICATIONS

- Certification of Completion(SimpliLearn): Introduction of SQL

- Certification of Completion(SimpliLearn): Introduction of PostgreSQL

- Certification of Completion(Coding Ninjas) : Data Structures and Algorithms
